WINGS OVER KENYA **4 - 16 April 2009**

The Wings Over Kenya Safari has been designed for the first time traveler to Africa who wants to experience a safari in style and comfort. Included in our safari are the most popular wildlife parks and private reserves of Kenya. In addition to viewing and learning about Africa's legendary wildlife, we will also participate in a variety of educational and cultural experiences designed to enhance our safari experience.

Our accommodations are the best Kenya has to offer which includes ten nights in luxury-tented camps and two days on a private game ranch.

Transportation will be by comfortable Land Rovers with large photographic hatches. We will also use light aircraft between the parks, providing a view of Kenya's beautiful landscapes from the air, and thus eliminate hours of driving. This unique combination of flying and driving provides the advantages of both modes of transportation and gives us more time to view and photograph the wildlife and meet the colorful people of this great country.

This safari is for the photographer that wants to experience Kenya in style and comfort and is willing to pay a little more to stay in luxury tented camps and do more flying than driving. There are also other Wings Over Kenya Safari [Highlights](#) that David Anderson, who personally designed this safari, has added. This safari has been the company's most popular safari for over 25 years.

Maximum Participants: 12 with a maximum of 4 photographers per Land Cruiser.
Photographer Leader: TBA
